WHAT OUR STUDENTS SAY ABOUT US?

Andrea M

"Would highly recommend to Business/Finance majors looking to gain financial modelling experience as well as anyone who wants to break into the industry"

David T

"What stood out for me was the real world examples which made it engaging and relevant and the training brought it to life"

Joseph K

"The course is contemporary, using tangible, everyday examples to consolidate seemingly abstract concepts from accounting to financial modelling. This is a truly great and unique opportunity"

Carolina M

"I highly recommend it to anyone who wants to gain advanced technical skills and have real insight into what the industry is like. I now feel very confident about my skills and much more prepared walking into interviews"

WHAT OUR STUDENTS SAY ABOUT US?

Tom C

I highly recommend the course for anyone trying to break into banking as it builds up the core foundations needed to separate yourself from the rest of the job candidates.

Amar P

"The theory and the application model of the course works very well. I think what that does is it allows us to walk into any analyst job feeling confident."

Tom K

I attended the 8 week course in July 2023. Within the first week after finishing I had secured 4 separate interviews with various IB / PE firms and later converted one into a full time role. Would highly recommend!

Nifemi

"Some of the proprietary knowledge we gain at City Investment Training such as the Goldman Sachs approach approach on pitching a stock in an interview was a game changer. This approach helped me land my first equity research summer internship at a bulge bracket bank."
